challenging time for our general education students, and I know they will rise to the occasion. The students I'm truly worried for are our ESE students. While we adapt the way we address their needs, in reality, we can only do what the parent is able to help implement. Most of my days feel like I'm less teacher and more tech support. Much of the curriculum requires major hands-on support. Some parents are simply not able to provide the level of support the teachers need for their child to reach their potential." - Elementary ESE School Teacher, South Florida

Takeaways

The Educational Services sector has a strong footprint in South Florida. While the landscape of providing educational services has shifted, the rate of job loss remains low across public and private education establishments. The long-term prospects for universities are uncertain, given declining endowments, the potential loss of revenue from enrollment, and likely
